February 15th, 2023

Dear Patron,

We at Drug Awareness Society of Toronto (DAST) would like to invite you to our Annual Dinner and Information Session. The evening is also to Celebrate Your Continuous Support to us year after year in our effort to bringing awareness of substance abuse in our communities. Since our first day, you've constantly guided us through any challenges that we faced and you've never been too busy to extend a helping hand to us in different ways. We at DAST want to express our heartfelt gratitude for the assistance that you have given us ever since we started this NGO. Your assistance has been invaluable!

Thank you for your consistence support and we hope to be able to return your favours by working relentlessly for the cause. You have been a constant pillar of support in all our trying times.

We at DAST have been involved in the community for the past 10 years in conducting awareness events on the effects of alcoholism and street drugs on the community.

We are facing numerous challenges in the community, due to lack of awareness, support, appreciation and an understanding in the community which hinders the development of good programmes for the community. We at DAST are fully committed to the cause of Nation building with our focus on drug free community and youth development.

With this in mind, the Drug Awareness Society of Toronto organises numerous event all around the year in the community and at schools.

Please accept this invitation and be part of a positive change. Join us in an inspiring evening of BUILDING STRONGER COMMUNITY and its power in nation building.

Date/Time/Venue
